

The People You Will Be Working With:

Val Bartlein

Mr. Bartlein began his relationship with Rodgers Instruments as a business consultant in early 2000. He consulted with Rodgers' clients all across the U.S. in the selection, design & installation of their instruments and in developing their financial resources. He also consulted with Roland, Kawai, Steinway, & Yamaha piano dealers regarding how to attract more and best care for their

clients. He became owner of CLASSIC CHURCH ORGANS in 2002, and in 2005, Mr. Bartlein stopped consulting to focus entirely on CLASSIC CHURCH ORGANS' clients. He graduated from St. Norbert College, DePere, WI in 1985 with a business/marketing degree and extensive course-work in vocal music performance and liturgical music. Prior to his relationship with Rodgers, Mr. Bartlein served as Music Minister for St. Norbert College from 1994-2001.

Dennis Mullen

Mr. Mullen is our electronics technician. He is a computer whiz; he has attended the Rodgers certification school and is a member of MITA. Dennis has been with our company since 1995, and he is considered one of the premier digital electronic technicians in the Midwest! Dennis assists with voicing and is an important part of the installation process. During the life of your instrument, Dennis keeps repair priority #1!

Behind the Scenes Expert Resources:

George Ackerman-Behr - Wind-blown Pipe Specialist, Designer & Installer of winded pipe systems, general repair technician for Michigan's U.P.

Gary Shulfer - Installation Specialist for digital and winded pipe systems

Sam Eberwein - Rodgers National Sales Manager

Dan Miller - Rodgers Product Designer, Voicing Specialist, Clinician & Guest Artist

David Pettit & Rodney Barbour - Rodgers Tonal Consultants, Voicing Specialists & Guest Artists

CLASSIC CHURCH ORGANS

A bit about our company...CLASSIC CHURCH ORGANS was introduced to Wisconsin in the early 1970s as a division of Henri's Music. In 2002, CLASSIC CHURCH ORGANS became an independent company representing the full-line of Rodgers Instruments for most of Wisconsin and Michigan's U.P. CLASSIC CHURCH ORGANS has installed and maintains about 330 instruments in our region!

CLASSIC CHURCH ORGANS' marketing team members all have extensive background experience and education in leading worship and have taken particular interest in training other church musicians—helping them improve their musicianship and leadership skills. Through CLASSIC CHURCH ORGANS, we offer our experience, love of church music and desire to help church musicians with state-of-the-art technology and instruments to our clients.

“We will not settle for anything but your complete satisfaction.”

Our staff of professionals offers service on almost all brands of musical instruments and sound-related equipment. Church organ service includes installation of your new instrument, pipe organ repair and tuning, tonal finishing, voicing, electronic repair and complete regulation. Our full-time, factory-trained technician is available for emergency service on our Rodgers installations and also offers service on other major brands. Repair service is our #1 priority!

“You will not encounter a single bill of any kind for parts, labor, or travel for the first 10 years of ownership of your Rodgers Organ!”

Our mission is to present the best installation and training that will provide your church with beautiful, rich, consistent music throughout the worship space for many decades to come! Because Rodgers Organs is technologically superior with an incredible array of capabilities, it is paramount that the musicians of your church know how to get the most out of this major investment. CLASSIC CHURCH ORGANS provides upfront and ongoing training (both at your church and in seminars offered frequently throughout Wisconsin and Michigan's U.P).

“You will never have to pay for training throughout the life of your Rodgers Organ!”

Our Clients Tell Our Story Best:

The incredible Rodgers Masterpiece 3-manual organ in the beautiful new worship center at Ascension Lutheran Church in Green Bay (on the cover) was dedicated in September 2012! In addition to the winded pipes and digital pipe voices, it also offers over 1,100 MIDI Orchestral voices! Eric Ludvigson, Worship Leader, said, “We selected Rodgers to combine with our winded pipes because their organ offered the best sound and tools to allow the organ to play any style of music for our worship!”

The new Rodgers Infinity 2-manual organ was dedicated in the newly renovated and beautiful St. Thomas More Catholic Church in Appleton in January 2014! The music coordinator, Patricia Verbrick, recently commented, “I’m so glad we purchased from you (CLASSIC CHURCH ORGANS)! With all of the support and training you’ve given us, I can’t imagine that we would’ve received such good care from anyone else we talked to!”

The Infinity 3-manual organ (below) was combined with 10-ranks of winded pipes and a highly customized sound system at St. Therese’s Catholic Church in Wausau. It was dedicated by world famous concert organist, Dan Miller, in March 2016! Following the concert, Lynn Hildebrandt, music coordinator, exclaimed, “That was just wonderful! This organ really can do anything! I especially liked the organ mariachi band!” referencing a choir selection in which the organ replaced a Mariachi band!
